

## FAAST CENTRAL CENTER

### Celebrates National Family Caregivers Month with AT Solutions

We join in celebrating the contributions of caregivers across the country who provide support and comfort to their family members with a disability. In appreciation of their dedication, we have focused on a number of AT solutions that are of benefit to individuals with disabilities and which can also support their caregivers through alternative solutions to their needs.

Examples of products we are highlighting this month include the Wellness Wizard, Smart Shopper, Mobi Cam, Wander Alerts, Attendant Call systems, and Amplified Emergency Phone options.

Stop by the FAAST Central Regional Demonstration Center to learn more about products that people like Betty W. just love, that make Harrison F.'s son feel more secure when leaving dad alone, that Clint E. won't leave home without, or that Mr. John W. knows he can get immediate assistance from when needed. The self-assurance that assistive technology provides helps not only individuals with disabilities, but their loving caregivers as well.

Call 813.844-7591 to learn more about these and other assistive technology solutions.
