[https://www.ablenetinc.com/quicktalker-7](https://www.ablenetinc.com/quicktalker-7)

**QuickTalker 23 - $199.00**

A portable dedicated speech generating device that features 23-message locations and 20-minutes of record time. Simply switching between the five available recording levels provides up to 103-messages. Includes built-in carrying handle.

[https://www.ablenetinc.com/quicktalker-23](https://www.ablenetinc.com/quicktalker-23)

**7-Level Communication Builders - $359.95**

Static display speech-generating device with digitized voice/recording capabilities that plays 1, 2, 4, 8, or 16 different messages per level (7 levels total) and the total record time is 300 seconds. Up to 112 messages can be recorded. The unit comes equipped with 5 frame/overlays in 1, 2, 4, 8, and 16 windows.

[enablingdevices.com/7-level-communication-builders](https://enablingdevices.com/7-level-communication-builders)
**Tech/Talk** - $395.00 – $898.35

Static display multi-level communication aid with digitized voice/recording capabilities that can be accessed using direct selection. Distinct features include: lightweight, portable, “Time-Lock” technology, and “Real-Voice” technology. Available in black/gray or white/blue grid/base colors.

[www.enablemart.com/tech-talk](http://www.enablemart.com/tech-talk)

---

**S32** - $1,500.00

Static display speech-generating device with digitized voice and scanning capabilities. Static overlays can be used to represent vocabulary with symbols, pictures, or scenes. Messages and sounds are recorded either directly onto the Tobii S32 speech device or via the accompanying software Tobii SymbolMate.

[www.tobii.com](http://www.tobii.com)

---

**ALT-Chat**

Dynamic Display SGD

ALT-Chat combines the power of the ChatPC software with Prentke Romich Company’s popular Springboard Lite hardware. Although still very portable at 2.5 lbs., ALT-Chat offers text-to-speech synthesis, switch access ports, excellent audio quality and other features you expect on a full featured, dedicated communication device. The compact communication device measures just 7.3” x 7.4” x 1.8” and is available in three colors.

### Portable Communicator for the Visually Impaired

Static display speech generating device with background illumination. Uses digitized speech, has 4 scanning modes and carrying strap.

[enablingdevices.com/portable-communicator](enablingdevices.com/portable-communicator)

---

### Lingo - $199.00

Static display speech-generating device with digitized speech. Features seven 25-second message locations and one 60-second sequential message location. The device can be worn on the waist or around the neck and shoulder. Keyguards are also available.

[http://www.ablenetinc.com/Lingo*](http://www.ablenetinc.com/Lingo*)

---

### Tech/Speak 32 - $1,020.00

Portable, static display multi-level speech generating device with digitized voice/recording capabilities using “Real-Voice” technology. Overlays and a shoulder strap are also available. Features: durable, rugged, and water resistant

Mouse Alternatives

EyeTech TM-4 Mini

The TM-4 Mini allows for eye gaze access/connectivity to any Windows PC. It features a large head motion box & magnetic mounting capability ideal for sharing across multiple computers (home, work, school). The TM4 mini also easily interfaces with AAC speech devices through a single USB connection.

https://www.eyetechaac.com/tm4-mini.shtml

KidTRAC - Inclusive USB - $104.00

Inclusive KidTRAC is a large sturdy and affordable, full-sized, three button trackball, which is 100% Microsoft mouse compatible and very popular. The low profile case acts as a natural hand rest.

The central green colored key (situated at the back of the yellow ball) is a "drag lock" feature - simply press the drag button and the button stays 'locked' until you press a second time. Supplied with USB connector. For PC only.

The three color coded switch jacks allows easy switch operation of the left (blue) button, right (red) button and drag-lock (green) button. We can supply blue, red and green Switches to match.

http://www.inclusivetlc.com/kidtrac-inclusive-usb
n-ABLER Joystick - $420.00

The n-ABLER Joystick is specifically designed to address the needs of computer users with limited hand control, motor skill difficulties, poor hand-eye coordination, lack of manual dexterity and involuntary muscle spasms.

The joystick requires only a light touch which, together with the function buttons, makes for easy navigation, selection and manipulation of objects on the computer screen.

The n-ABLER Joystick emulates a computer mouse but, with fingertip control and the need for only minimal hand movement, reduces wrist and elbow fatigue, requires far less effort and is less tiring. The symmetrical design enables users to work with either hand without having to angle the wrist, and the unit can also be configured for 'left-handed' operation. Its large, integrated hand support/palm rest makes work posture more relaxed and less strained.

http://www.inclusivetlc.com/n-abler-joystick

OPTIMAX Wireless Joystick - $395.00

OPTIMAX Wireless Joystick is designed for users with motor skill difficulties. With an operating range in excess of 32 feet, it is ideal for use with groups or in the classroom.

The OPTIMAX Wireless Joystick is specifically designed for cursor movement to respond to the lightest touch (0.5 Newtons) for accurate, cursor navigation and precise targeting of objects on the computer screen. Three different handles included, four cursor speed settings, Low profile provides a natural hand rest for comfortable operation.

Sockets allow the left/right click buttons to be operated using your own switches, has Left/right and drag lock buttons and color coded buttons mounted sub-flush to prevent accidental activation. The joystick also has easy 'plug and play' installation.

http://www.inclusivetlc.com/optimax-wireless-joystick
## Reading/Literacy Aids

### Reading Pen 2 – $229.95

Portable learning tool for students of a second language and for people with reading difficulties (e.g., dyslexia). Provides a text to speech translator that is adapted for both school-age readers and for college level and adult readers. The Reading Pen 2 facilitates reading autonomy, fluency, and text comprehension.

[www.wizcomtech.com](http://www.wizcomtech.com)

---

### Steady Write - $10.00 - $25.00

Assistive handwriting device for individuals who have tremors, arthritis, Parkinson’s or other conditions that make fine control of a pen difficult. The Steady Write is lightweight and has a sturdy base, which minimizes shaking motions of the hand. The device uses blue ink and refills are available.

Blue2 Bluetooth Switch - $179.00

The NEW Blue2 Bluetooth switch provides single or dual switch access to iDevices running iOS 7, Apple desktop or laptop computers running OS X Mavericks, and all switch accessible apps or software on iOS, OS X, Windows, and Android. Blue2 connects to your favorite device via a Bluetooth connection that is easy and quick to set up. New features include an improved switch activation surface that takes 40-percent less pressure to activate, multiple modes of operation for compatibility to all apps, a long-lasting rechargeable battery, and a sleek, modern design.

Note: The NEW Blue2 switch is compatible with most tablet, desktop, and laptop computers that have a Bluetooth connection. iOS 7, OS X Mavericks, or switch accessible software or apps are required.
